

INTERNATIONAL DEMENTIA CONFERENCE SERIES 2023-2024

SPEAKER	LECTURE	DATE	PARTICIPANTS
Prof. Soyon Hong	Microglia-Synapse Interactions: The Triggers and the Consequences	January 18 th ,2023	75
Prof. Henrik Zetterberg	Update on biofluid-based biomarkers	February 1 st ,2023	186
Prof. C Justin Lee	Reactive Astrocytes as the cause of Alzheimer's Disease	February 15 th ,2023	82
Prof. Stina Syvanen	Synaptic dysfunction during A β pathology progression studies by SV2A PET imaging – what do we know so far ?	Mach 15 th , 2023	45
Prof. James Rowe	Synaptic loss in AD and non-AD dementias – clinical perspectives	April 12 th , 2023	80
Prof. Michael Schöll	History of FDG PET and its role in “N”	April 19 th , 2023	67
Prof. Joana B. Pereira	Untangling the association of amyloid - β and TAU with synaptic and axonal loss in Alzheimer's disease.	May 3 rd , 2023	68
Prof. William Klein	Amyloid beta oligomers as a molecular basis for the cause, diagnosis and treatment of the Alzheimer's disease.	August 31 st , 2023	152
Dr. Yang Yang	Cryo-EM Structure of Amyloid Beta Filaments from Human Brains with Alzheimer's Disease	September 20 th , 2023	89
Dr. Baayla Boon	A new light on heterogeneity in Amyloid- β pathology	October 4 th , 2023	123
Prof. Dennis Selkoe	Amyloid β -Protein as the cause and key disease-modifying target in Alzheimer's Disease	November 15 th , 2023	151

INTERNATIONAL DEMENTIA CONFERENCE SERIES 2023-2024

Prof. John Hardy	Alzheimer's disease: from genetics to the beginnings of mechanic therapy	November 29 th , 2023	152
Dr. Cynthia Lemere	Topic: Amyloid - β	January 10 th , 2024	126
Prof. Valentina Garibotto	Topic: Amyloid - β	February 14 th , 2024	77
Prof. Bengt Winbald	Topic: Amyloid - β	March 13 th , 2024	87
Prof. Clifford Jack	Topic: Amyloid - β	April 3 rd , 2024	150

Total Participants: 1710
